

HSIT-MUS

USB Multi Switch Hub

Industry's first device combining a High-Speed USB hub and switching functionality a single solution

Equipped with 8 upstream & downstream Ports

USB Peripheral sharing and switching

High Throughput (Max. 60m)

Easier Integration (Max. 8 Switches)

USB 2.0 Interface

Minimum Host Overhead

USB Multi Switch Hub

HSIT-MUS

Feature

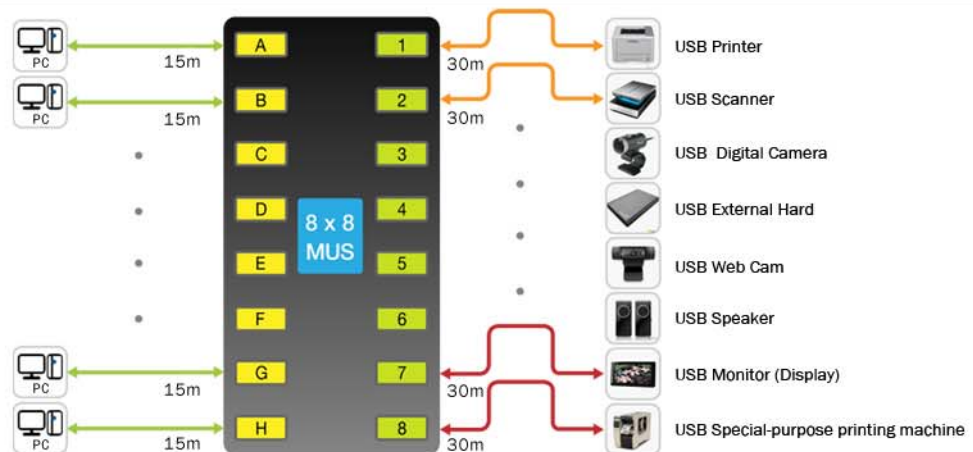

- Equipped with 8 upstream & downstream Ports
- USB Peripheral sharing and switching
- High Throughput (Max. 60m)
- Easier Integration (Max. 8 Switches)
- USB 2.0 Interface
- Minimum Host Overhead

Specifications

Interface	USB 2.0
Connector	Available all types USB connector
Extension length	Max. 60m (From PC to Device)
Connection	Max. 8 PC & 8 USB
Power	AC100~240V 50/60Hz (12V/2.5A)
Dimension	345(W) x 200(D) x 75(H) mm
Weight	Approx. 2.7Kg

Applications

Requirements

OS	Windows XP, Vista, 7, 8(32/64Bit)
CPU	Min. Pentium III 1GHz
RAM	Min. 256MB
